DETAILED ACTION

EXAMINER'S AMENDMENT

The application has been amended as follows:

IN THE CLAIMS

In claim 1, line 7: the term "signal" has been inserted after –optical–.

COMMENTS

This amendment corrects a minor grammar error.

The following is an examiner's statement of reasons for allowance: The present application defines over the prior art for at least reciting within the context of independent claims 18 and 19: "resolution for at least one optical signal below –25dB level is better than resolution for at least one optical signal above –25dB level". All other claims are dependent on claims 18 and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
